**Treasurer:** Erik Vandermey present. Bank balance \$10,424.35

**President Emeritus:** Bob Lindsey-not present

**Director:** Dylan Hauge, present

**VP:** Byron Tsokalas, present

**President:** David Finchum, present

### REGULAR REPORTS

**Membership, Registration & Administration;** We are currently at 73 members. Discussion was had about Motorsportsreg.com. Pre-Registration is set at Midnight the night before the event. On line registration goes up to 9AM the morning of the event. As long as Dylan Hauge is at the event to receive the emails this is not an issue, as he will be able to confirm if someone has paid.

**Equipment, Property & Technology;** We discussed the amount of weight in the trailer and what can be done to clean out some un-needed material. We still have the blower on loan from Darryl, which would come in useful but the tire is messed up on it. He will look into repairing the blower tire. He will also look into a few other trailer repairs, door, etc. Erik has applied for the new trailer plate sticker which will be mailed to his house. We discussed supplies in trailer and believe we are good on everything.

### **Schedules & Sites;**

There was a concern voiced that the area auto cross schedule between the neighboring organizations was too overloaded and that possibly should get rid of an event and opt for a different date or reduce schedule all together. After much debate, everything will stand as is for now and will be reviewed after event #5.

Next event 6/18 Event # 5 RT66 Joliet. Event chair is George Artega. Looking for co-chair. Ian offered to help. There is one other who offered as well but was not present.

We will be using the SCCA trailer again. Team Beall will make sure to pick up more waivers and the wrist bans on the way to the track that morning.

6/24 & 25 Event # 6&7 Lake County Fair Grounds-This is the last event we will need to reserve a rental truck for. Dave will call for a food vender for events 6 & 7. (Update-there will be food available at these events.) We will be sharing the LCF sight one of these days and will need to not camp out by the building and will need to grid on the frontage road. NO GRID BY BUILDING. Ryan Weddle will

not be at this event. Byron & Ian will try to shadow at event #5 and soak up as much Weddle Knowledge as possible for Tech.

8/6 Event #8 Miller Park, Milwaukee . (we will use Milwaukee regions equipment)

10/15 Event #9 RT66 Joliet (we will use SCCA equipment and trailer.)

**Trophies;** T-Shirts have been ordered and should be at Event #5.

**Sponsors;** Byron is still in the works of drafting up sponsorship options and tier levels. Discussed taking into account the cost of t-shirts, site rental, truck rental, etc.

**Event Review;**

Event #2 Lake County Fair Grounds – Five Car Finch designed course. Everything went well. We had 9 runs for the day and were done by 5:30. The course was fun. Only complaints seemed to be that there was no food vendor and we did not break for lunch. When LCF was approached we were told that none of the food vendors started that early in the season. (We can only use their approved vendors.)

Event #3 RT66-Jason Frank designed course. We had 9 runs for the day. It was fun course. We were a little unprepared in the morning as we did not have the waivers at the site and Team Beall made a quick trip to the TSSCC trailer stored in Rockdale and picked up what we needed. We were able to get the waivers signed and hand out the wrist bands before the drivers meeting was completed.

Event #4 Lake County Fair Grounds- Course design Ben Deneweth. Assisting was Team Janulis. Though faced with some obstacles upon arrival, ie; two cars left parked on the lot in the middle of course, locked gate and handicapped sign posts in concrete scattered around the area, set up went fairly well. Thank you to everyone pitching in and helping. We were also missing some key participants that we rely on a lot. There were eight runs for the day. The course was challenging and tight. We were done by 3:30 and that was with a 45 minute lunch break. We were rolling off the lot by 4:30. Signing up people that would have been extra corner workers for clean up instead was very helpful.

**New Business/Old Business;**

Dylan is in the process of making the NOVICE TAXI magnets.

Ian has made a checklist for Corner Captains and will be with each of the Corner Captain clip boards as well as posted on the side of the trailer.

Need to emphasize at next events driver meeting that workers need to check in before the heat they are working. They cannot check in during a prior heat. We need to assure everyone is heading to their assigned location at the correct time.

**Announcements;**

Mike M and Veronica are now the proud parents of a baby girl! “Now that’s a spicy meatball” (don’t ask...I was told to include that comment in the minutes)

Paul Kolatorowicz is still selling his Solstice

Paul Kurt is selling his CRX

The Beall's still have their Rabbit & Sirocco for sale

Adjourned: 8:17      Submitted by TEAM BEALL
