

General Membership Meeting Minutes

July 2, 2012

Call to order 19:18 and 18 attendees

Board Reports

- **Secretary-** To clarify in the June minutes you have to be a registered participant to do a ride along. Also Paddock will be defined by the event chairs & board, event by event.
- **Treasurer-** Checking \$4208.03 in combined accounts. Next event and porta potties are paid for. Toyota Park has also already been paid for. Everything is being finalized for those needing refunds for the canceled event.
- **Director-** Darryl got the cones.
- **Vice President-** No comments.
- **President-**Went straight to regular reports.

Regular Reports

- **Membership, Registration & Administration-**Registration and worker assignments went well at the June 10th event.
- **Equipment, Properties & Technology** –Timing equipment is working well. Arush is still waiting on a quote for printer & cable. We do not believe anyone looked into the one radio that was not working properly. We will have to do that at the next event.
- **Schedule and Sites-** We lost the site for the 7/1 event due to the village putting up barricades that blocked our event site. This was beyond our control as well as that of the Sears Center. They were very apologetic. We will do July 14 & 15th for a twin event. We are unsure if we will be able to leave the cones out on the 14th over night. Tony and Wes (double checking with Wes will do the 14th and the Barowski's will do the 15th. We are looking to add a 9th event with Lake County Fairgrounds. Discussed what was of more interest to the majority, another twin event or a Sunday later in the season. Seemed more preferred another Sunday date later in the season.
- **Trophies-** Nothing to report.
- **Sponsors-** Keith from KEITH TENANT PHOTOGRAPHY said pictures will be posted to website soon. See link on our home page. Also Mike stated it appears that more people are starting to use the magnets instead of tape.

Event Three Review

- We had 87 entries. Everything seemed to work well and got all the runs in.
- Tried out a couple of new specialty people and things worked out fine.

- We had a low cone count, thanks to a good course set up. The runs in the morning & afternoon remained pretty consistent.
- Workers checked in when they were supposed.

Old Business

- None

New Business

- A Fast Track came out that affected all the cars in STF class such as Tom Beall's Rabbit. It involves VW's from 1972-89
- Grassroots Motorsports will have a table describing STF. We will compare Tom's Rabbit at that time. Until then the STF competitors will be e-mailed and asked if they think Tom should be allowed to compete in STF.

Announcements

- None

Adjourned 20:00- Submitted by Tom Beall
