Director- no comments

Vice President – no comments

President- no comments

Regular Reports

Membership, registration & administration – We have had 65 members sign up through PayPal.

Equipment, property, technology – Equipment found that was missing from Learning Curve and will be at the next event. Erik will order possibly 6 new radios. Live timing will be worked out with Erik and Ryan for the next event.

Schedule & Sites – Next event 5/19 at Sears Center. Course design by Team Janulis and Alan Murphy. Live timing should be up.

Trophies – Nothing discussed.

Sponsors – Keith Tennant was present and says he will have pictures up soon for the first Tri State and SCCA events. Underground Motorsports is a new sponsor and has offered a 10% discount for Tri State members.

Event Review – First event was April 21st at Sears Center. We had 114 participants that posted times. We had six runs with no incidents. Discussed the finish near grid was a little tight for cars finishing hot. Too many people standing near run off area. Need to allow more space for safety and have finish further away from spectators. Also there was a bump in the track near finish that caused some upset to cars as they were finishing. It was a fun course (this was board designed course).

Old Business – Nothing discussed.

New Business – There was nothing new discussed.

Announcements- Brad Lemont has 4 15x6 winter wheels available for Mazda. See him for details.

Witch Feet will be performing Saturday June 15th at Six Corners BBQ from 1:30 to 2:30 at Irving Park & Milwaukee.

Adjourned- 19:38 submitted by Tom Beall
